1. The RFT Stötteritz of Leipzig manufactured 98 walkie-talkie sets for the Volkspolizei during February and March 1954. Part of the sets were delivered in a new plastic case and part in wooden cases. Mass production of simulator (etc) parts continued.
2. There are shortages of tin and spring steel. Supplies of receiver tubes are now coming regularly. Development work is going forward on an ultra short wave sender to be built for the Soviet Union. The development probably will be completed in June 1954.
